

1. FOREWORD

This report presents highlights of program and activities carried out in Positive Network in Perambalur. It would give a vivid picture of what we are and for who we are and where we are working.

I can think of no other phrase with which I can express my gratitude to TANSACS, PFI, INP+ and TNNP+ & APAC for contributing themselves for our organization to reach out to the knowledge of HIV/AIDS that sets free many positives that are ignorant of the same. With almost sincerity I extend my gratefulness to all the Local District Administration officers, leader and staffs of other Positive networks, NGOs, Government Hospitals, Volunteers, Donors and PLHA friends for making this intervention a success.

9. CHALLENGES FACED AND WAY OF OVERCOME:

We are facing some challenges in the following area and we are overcome them by effort of our working strategy.

- Identification the new PLHAs and follow up the Defaulter when the client's address is incomplete, incorrect or they are in some interior areas - we are overcome this challenge by more out reach activities and support with local people.
- We are had some difficulties to achieve our new enrolment because the other Service Delivery like ART centre, ICTC are enroll all district clients. But we are cant enroll other district clients. So there are some gab between Network enrollment and ART center & ICTC enrollment - we are classify the District wise PLHAs from ART centre and ICTC reports and enroll our target district clients only.
- We are facing some difficulties in receiving government schemes like widow pension and TAHDCO loan - we are done some advocacy for the above issues they will assure that here after we will give the services those are having eligibility.
- Then we are facing some difficulties in support net concept like Group forming, Bank operations and other related issues - we are overcome this challenge by our continuous effort and guidance of state & national networks and local stakeholders.
